Introduction

.....

The Arkansas Literacy Coaching Booklist is intended to be a helpful resource for locating books organized by certain categories developed for the Arkansas Literacy Coaching Model. The leveling system used in this compilation includes the Fountas and Pinnell Classroom Leveling System ranging from levels A through T. These gradients of difficulty will support teachers in making the best decisions for guided reading. The list also includes a wide variety of literature so children may have experiences with all types of genres. A list organized by publisher is also available to locate books quickly if there is a need to order from a specific company.

Some books are tentatively leveled to indicate that the book has not been field tested for the level assigned.

The booklist is a work in progress throughout our work with children. We encourage you to add to the list as you encounter quality literature your children will enjoy.
